**SOUTHERN CALIFORNIA EDISON COMPANY’S (U 338-E) MOTION FOR
PROTECTIVE ORDER AND FOR PERMISSION TO FILE DATA UNDER SEAL**

Pursuant to Rule 45 of the California Public Utilities Commission’s (the “Commission”) Rules of Practice and Procedure, Southern California Edison Company (“SCE”) respectfully files this Motion for a Protective Order and for permission to file data under seal in this proceeding (“Motion”). SCE moves the Commission for an order: (1) granting leave to file the confidential and proprietary portions of its August 1, 2006, Renewables Portfolio Standard (“RPS”) compliance filing (“Protected Materials”), filed concurrently with this Motion and under seal; and (2) expressly adopting the protective order attached hereto as Exhibit 1, to govern access to and use of protected documents, workpapers, and other information that may subsequently be produced by SCE and potentially other parties in discovery in this proceeding.

This Motion is made pursuant to the Public Utilities Code Sections 454.5(g) and 583, General Order 66-C, D.06-06-066, Federal Energy Regulatory Commission (“FERC”) Order No. 2003,¹ and the provisions of the Protective Order. This motion seeks confidentiality protection for the specific contract milestones and transmission information of RPS projects being developed under contracts between SCE and renewable generators. The grounds for this Motion

¹ See 104 FERC ¶ 61,103, Standard Large Generator Interconnection Procedures (“LGIP”) at Section 13.1.

are that under FERC Order No. 2003, SCE is required to keep certain information regarding transmission confidential. In addition, pursuant to D.06-06-066 the specific contract milestones are confidential, market sensitive information that must be protected from public disclosure under the Protective Order and applicable law.

I.

INTRODUCTION

Concurrently with this Motion, SCE is filing its August 1, 2006 RPS compliance filing. As required by D.06-05-039, the compliance filing includes additional reporting (i.e., RPS Project Development Status Reports) on whether each of SCE's approved RPS projects is on target to achieve its development and initial operation milestones.² The RPS Project Development Status Reports also require that SCE identify certain transmission information related to these projects. These reports are attached to the compliance filing as Appendix B. Within Appendix B, SCE only seeks the protection of information related to specific contract milestones and transmission information for nine projects that are not yet operating. SCE does not seek confidentiality protection with respect to reports concerning projects that are currently operating.

II.

THE CONTRACTUAL MILESTONES FOR RPS PROJECTS ARE CONFIDENTIAL, MARKET SENSITIVE INFORMATION AND MUST BE PROTECTED

In D.06-06-066, the Commission set forth the standard for designating information as confidential in Commission proceedings. As part of the decision, the Commission established a matrix, which identified several categories of data and the level of confidentiality granted to each category. Specifically, in D.06-06-066, the Commission stated that “[w]here a party seeks

² D.06-05-039 at 81.

confidentiality protection for data contained in the Matrix, its burden shall be to prove that the data match the Matrix category. Once it does so, it is entitled to the protection the Matrix provides for that category.”³ SCE seeks to protect certain information related to specific contract milestones for non-operating projects set forth in Appendix B to its compliance filing. These milestones relate to the terms and conditions of the individual contracts entered into between SCE and the respective generators and are confidential under the matrix under “Section VII. Bilateral Contract Terms and Conditions – electric (G) Renewable Resource Contracts under RPS program – contracts without SEPs.”⁴ More specifically, Section VII. G. provides that contract information shall be confidential for three years after first delivery. Because the contracts that are the subject of this Motion have not resulted in any deliveries, the information is protected. In addition, and in accordance with the level of protection afforded under the matrix, SCE has not redacted the individual contract summaries, which include counter-party name, resource type, location, capacity, expected deliveries, delivery point, length of contract and online date.

Information related to the individual contractual milestones is also protected under Public Utilities Code Section 454.5(g) and General Order 66-C. Public Utilities Code Section 454.5(g) requires the Commission to maintain the confidentiality of “market sensitive information.” It provides:

The commission shall adopt appropriate procedures to ensure the confidentiality of any market sensitive information submitted in an electrical corporation’s proposed procurement plan or resulting from or related to its approved procurement plan, including, but not limited to, proposed or executed power purchase agreements, data request responses, or consultant reports, or any combination, provided that the Office of Ratepayer Advocates and other consumer groups that are nonmarket participants shall be provided access to this information under confidentiality procedures authorized by the commission.⁵

³ D.06-06-066 at 80.

⁴ See *id.* at Appendix 1, pg. 17.

⁵ Cal. Pub. Util. Code § 454.5(g) (*emphasis added*).

General Order 66-C requires the Commission to protect confidential information that would place a utility at an “unfair business disadvantage” if it were publicly disclosed. It categorizes as information that is “not open to public inspection,” those “[r]eports, records, and information requested or required by the Commission which, if revealed, would place the regulated company at an unfair business disadvantage.”⁶

The contractual milestones contained in the RPS Project Development Status Reports are considered market sensitive and would place SCE at an unfair business disadvantage for four reasons. First, disclosure of the contractual milestones would hinder SCE’s contract administration of all of its yet to be completed RPS projects. By revealing contract milestones that have not been reached or revealing where extensions were granted by SCE to developers, a “floor” is created as to what SCE is willing to allow a future developer to do during the construction of a project. This “floor” will disadvantage SCE in the construction of RPS projects by allowing such parties to exploit concessions that SCE provided under unique circumstances even though such concessions would not be appropriate in a different context or under different facts. Simply stated, publicly revealing this information may impair SCE’s ability to actively manage milestones and administer contracts for projects in development, a result that would appear to be directly contrary to the desire of policy makers to bring as much renewable power on line as soon as possible.

Second, the contracts that SCE enters into with renewable generators include confidentiality provisions related to the administration of the contract. The public release of the contractual milestones could potentially subject SCE to liability for damages suffered by a generator in connection with the improper release of confidential information by SCE.

Third, SCE could be damaged by the long term effect of the loss of trust between SCE and prospective renewable generators that would be engendered by such a disclosure. This “loss

⁶ General Order 66-C, § 2.2(b).

of trust” would create a competitive disadvantage for SCE in its procurement efforts on behalf of its customers.

Finally, public disclosure of SCE’s judgment that a particular project is failing to meet milestones or otherwise struggling may impair the project developer’s ability to secure financing, investors or capital. Obviously, a project’s failure to obtain capital could result in the project failing. The Commission should be as concerned about the effect on the project developer of releasing SCE’s assessment of the projects overall viability as it is on SCE and its customers. Disclosure of this type of information in the hope of providing greater public access to RPS data may actually have the opposite of the presumably desired effect by causing or contributing to project failure.

III.

FERC REGULATIONS REQUIRE THAT INFORMATION RELATED TO TRANSMISSION IN THE RPS DEVELOPMENT STATUS REPORTS BE KEPT CONFIDENTIAL

SCE seeks the protection of transmission information contained in the RPS Development Status Reports for projects that are not currently operating. FERC Order No. 2003 governs the treatment of confidential information related to generator interconnections. The pro forma LGIP promulgated by FERC in Order No. 2003, and its progeny, states: “Confidential Information shall include, without limitation, all information relating to a Party’s technology research and development, business affairs, and pricing, and any information supplied by either of the Parties to the other prior to the execution of an [Large Generator Interconnection Agreement (“LGIA”)].”⁷ Section 13.1.2 of the pro forma LGIP also provides that neither party may release or disclose such confidential information to any other person except for certain narrowly defined affiliates and consultants.⁸

⁷ 104 FERC ¶ 61,103, Standard LGIP at Section 13.1 (*emphasis added*).

⁸ See *id.* at Section 13.1.2.

Pursuant to this Motion, SCE seeks the protection of transmission information which is used to perform interconnection studies for specific generators that has not yet been made public through the filing of an LGIA or a posting on the California Independent System Operator's ("CAISO") website.⁹ Based on the authority listed above this information has been deemed confidential and should not be publicly released.¹⁰

In addition, in accordance with FERC Order No. 2003, SCE has consistently maintained the confidentiality of information supplied to it by generators pursuant to an interconnection request that has not already been made public. This information, which includes information about the generator's position in the CAISO queue and its point of interconnection, is confidential market sensitive information to generators seeking interconnection because it forms the basis upon which generators make competitive business decisions.

Furthermore, it should be noted that the disclosure of such information could potentially damage SCE and its ratepayers. First, under Section 13.1.7 of the FERC pro forma LGIP, SCE could be liable for damages suffered by a generator in connection with the improper release of confidential information by SCE.¹¹ Second, and more importantly, SCE could be damaged by the long term effect of the loss of trust between SCE and prospective interconnecting generators that would be engendered by such a disclosure. This would create a competitive disadvantage for SCE in its procurement efforts on behalf of its customers.

Accordingly, all transmission information contained in the Protected Materials should be deemed confidential.

⁹ CAISO's LGIP, Section 3.6, provides for the release of information related to interconnection studies in situations that are identical to FERC Order No. 2003.

¹⁰ See also *Southern California Edison Co. v. California Public Utilities Comm'n*, 121 Cal. App. 4th 1303 (2004) (California Court of Appeals finding that FERC Order No. 2003 preempted Pub. Util. Code Section 399.25 regarding payment of upfront transmission costs.)

¹¹ See 104 FERC ¶ 61,103, LGIP at Section 13.1.7.

IV.

THE REDACTED PORTIONS OF SCE'S PROTECTED MATERIALS MUST BE FILED UNDER SEAL

This section sets forth the specific portions of SCE's unredacted August 1, 2006 RPS Compliance filing that are considered confidential. The following portions all relate to information regarding transmission and contractual milestones:

- Kern Biomass Project, pg. B-12.
- Liberty I Biofuels Power LLC, pg. B-14.
- Sierra Biomass LLC, pg. B-16.
- Green Borders Geothermal LLC, pg. B-18.
- SES Solar One LLC, pg. B-20.
- Mountain View Power Partners IV, pg. B-22.
- PPM Energy, Inc., pg. B-24.
- Coram Energy LLC, pg. B-26.
- Aero Energy LLC, pg. B-28.

V.

CONCLUSION

For all the foregoing reasons, SCE respectfully moves the Commission for an order directing that the confidential, market sensitive information appearing in the unredacted version of SCE's Protected Materials, which has been redacted in the public version, shall continue to remain under seal and shall not be made accessible or disclosed to anyone other than Commission staff except pursuant to the Protective Order, which the Commission should expressly adopt in this proceeding.

Respectfully submitted,

FRANK J. COOLEY

Standard Program.

Rulemaking 06-05-027
(Filed May 25, 2006)

**ADMINISTRATIVE LAW JUDGE’S RULING ON MOTION TO EXTEND
PROTECTIVE ORDER BY SOUTHERN CALIFORNIA EDISON COMPANY**

On August 1, 2006, Southern California Edison Company (“SCE”) filed a motion requesting a protective order and maintaining the confidentiality of certain information contained in its August 1, 2006 Renewables Portfolio Standard Compliance filing (the “Confidential Information”).

This order grants SCE’s motion. Public disclosure of the Confidential Information that SCE seeks to protect would cause imminent and direct harm to SCE and its ratepayers, and, therefore, must be protected.

Accordingly, it is ORDERED that:

- The protective order, a copy of which is attached hereto as Exhibit 1, shall govern access to and the use of all Confidential Information in this proceeding.
- The Confidential Information, which confidential version has been submitted under seal, shall not be made accessible or disclosed to anyone other than Commission staff except pursuant to protective order or on the further order or ruling of the Commission, the assigned Administrative Law Judge (“ALJ”), or the ALJ then designated as Law and Motion Judge.

Dated _____, 2006, at San Francisco, California.

**SOUTHERN CALIFORNIA EDISON COMPANY’S (U 338-E) PROPOSED
PROTECTIVE ORDER**

This Protective Order shall govern access to and the use of all Southern California Edison Company’s (SCE) Protected Materials in this proceeding as hereinafter defined.

Notwithstanding any order terminating this docket, this Protective Order shall remain in effect until, after notice and a reasonable opportunity to be heard, it is specifically modified or terminated by the Assigned Commissioner, the Assigned Administrative Law Judge (ALJ), the Law and Motion Judge (Law and Motion ALJ) or the California Public Utilities Commission (CPUC or Commission). This Protective Order does not address the right of employees of the Commission acting in their official capacities to view Protected Materials, because Commission employees are entitled to view such protected materials in accordance with the requirements of Section 583 of the Public Utilities Code and the Commission’s General Order 66-C and, as applicable, Section 454.5(g) of the Public Utilities Code.

Definitions. The terms in this Order shall have a meaning consistent with the provisions of SCE’s Commission-approved AB57 Procurement Plan currently in effect. The term “Procurement Plan” means SCE’s Commission-approved of plan for evaluating, identifying and purchasing energy and/or capacity, managing short and long positions, dispatching resources, obtaining or managing gas transportation, which includes storage and hedging activities, and administering and dispatching Department of Water Resources contracts set forth in Appendix A.

- a. The term “redacted” refers to situations in which confidential, commercially sensitive or proprietary information in a document, whether the document is in paper or electronic form, has been covered, masked or blocked out. Thus, the “redacted version” of a document is one in which the document is complete except that the confidential, commercially sensitive or proprietary information contained therein is not visible because it has been covered, masked or blocked out. The term “unredacted” refers to situations in which confidential or proprietary information in a document, whether in paper or electronic form, has not been covered, masked or blocked out. Thus, the “unredacted version” of a document is one in which the document is complete, and the confidential or proprietary information contained therein is visible.
- b. The term “Protected Materials” means the confidential or proprietary information contained in the unredacted version, and not contained in the redacted version, of any of the following: (i) any testimony provided in this proceeding, (ii) any workpapers provided in this proceeding, (iii) any data request or data response provided in this proceeding, (iv) any pleading provided in this proceeding, (v) any document provided in this proceeding.
- c. Protected Material shall also include (i) any information contained in or obtained from the unredacted materials described in the preceding paragraph, (ii) any other materials that are made subject to this Protective Order by any assigned ALJ, Law and Motion ALJ, or Assigned Commissioner, or by the CPUC or any court or other body having appropriate authority, (iii) notes of Protected Materials, and (iv) copies of Protected Materials. All parties, including Commission Staff, when creating any Protected Materials, shall physically mark such materials on each page (or in the case of materials such as computer diskettes, on each item) as “PROTECTED MATERIALS” or words of similar import as long as one or more of the terms “Protected Materials,” “Section 583,” “Section 454.5(g),” or General

Order No. 66-C” is included in the designation to indicate that the materials in question are Protected Materials.

- d. The term “Notes of Protected Materials” means memoranda, handwritten notes, or any other form of information (including information in electronic form) that copies or discloses materials described in Paragraph 3(b) and (c). Except as specifically provided otherwise in this Order, notes of Protected Materials are subject to the same restrictions as are Protected Materials.
- e. Protected Materials shall not include (i) any information or document contained in the public files of the CPUC or any other state or federal agency, or in any state or federal court, unless such information or document has been determined to be protected by such agency or court, or (ii) information that is public knowledge, or which becomes public knowledge, other than through disclosure in violation of this Protective Order.
- f. The term “Non-Disclosure Certificate” shall mean the certificate annexed hereto as Appendix A by which persons who have been granted access to the Protected Materials of SCE shall, as a condition of such access, certify their understanding that such access is provided pursuant to the terms and restrictions of this Protective Order, and that such persons have read such Protective Order and agree to be bound by it. All Non-Disclosure Certificates shall be sent to and retained by SCE.
- g. The term Non-Market Participating Party (“NMPP”) Reviewing Representative shall mean a person who is
 - 1) An employee of: (a) a state governmental agency that (i) is not a Market Participating Party as defined in Paragraph 3(h)(1) hereof, and (ii) is statutorily authorized to obtain access to confidential data held by another state governmental agency upon execution of a written agreement to treat the data so obtained as confidential, as provided in Government Code

Section 6254(e); or (b) any other consumer or customer group that SCE and the Director of the Commission's Energy Division or his designee ("Division Director") agree has a bona fide interest in participating on behalf of end-use customers in SCE regulatory proceedings on ratemaking and electric procurement, and which group is not a Market Participating Party as defined in paragraph 3(h)(1); or

- 2) An attorney, paralegal, expert or employee of an expert retained by a NMPP for the purpose of advising, preparing for or participating in the proceeding in this docket.
- 3) NMPPs shall identify their proposed Reviewing Representatives to SCE and Division Director and provide curriculum vitae of the candidate, including a brief description of the candidate's professional experience and past and present professional affiliations for the last 10 years. SCE shall advise the proposing party in writing within seven business days from receipt of the notice if it objects to the proposed Reviewing Representative, setting forth in detail the reasons therefore. In the event of such objection, the proposing party, SCE and the Division Director shall promptly meet and confer to try to resolve the issue, and if necessary seek a ruling from either the assigned ALJ or the Law and Motion ALJ. In addition to determining whether the proposed Reviewing Representative has a need to know, the ALJ in ruling on the issue will evaluate whether the candidate is engaged in the purchase, sale or marketing of energy or capacity (or the direct supervision of any employee(s) whose duties include such activities), or the bidding on or purchasing of power plants or consulting on such matters (or the direct supervision of any employee(s) whose duties include such bidding, purchasing or consulting). Absent unusual circumstances as determined by the ALJ, a candidate who falls

within the criteria set forth in the preceding sentence will ordinarily be deemed ineligible to serve as a NMPP Reviewing Representative. Persons who have represented members of SCE's Procurement Review Group in PRG meetings prior to February 3, 2003, and continue to represent members of the PRG, may initially qualify as NMPP Reviewing Representatives based on their prior participation on SCE's PRG, provided the individual executes the required nondisclosure documents in this proceeding as required by Paragraph 12 hereof.

- h. The term Market Participating Party ("MPP") shall mean a person who is
 - 1) An employee of a private, municipal, state or federal entity that engages in the purchase, sale or marketing of energy or capacity, or the bidding on or purchasing of power plants, or the bidding on or purchase of electric transmission resources, or the purchase, sale or marketing of natural gas, or the bidding on or purchase of natural gas transportation or storage, or hedging activities, or consulting on one or more of the foregoing matters, or an employee of a trade association comprised of such entities that engage in one or more of such activities; or
 - 2) An attorney, paralegal, expert or employee of an expert retained by an MPP for the purpose of advising, preparing for or participating in Procurement Plan and Compliance Reviews regarding SCE, or Energy Resource Recovery Account proceedings regarding SCE.
- i. The term "ISO Reviewing Representative" shall mean a person who is employed by the California Independent System Operator, a nonprofit public benefit corporation created pursuant to Article 3, Chapter 2.3 of the Public Utilities Act (Public Utilities Code Sections 345 et seq.). The ISO shall identify its proposed Reviewing Representatives to SCE and Division Director and provide a curriculum vitae of the candidate, including a brief description of the candidate's

professional experience and past and present professional affiliations for the last 10 years. In addition, the ISO shall provide for each proposed ISO Reviewing Representative a copy of the ISO's Employees' Code of Conduct signed by the proposed ISO Reviewing Representative. SCE and Division Director shall advise the ISO in writing within three (3) business days from receipt of the notice if either or both of them object to the proposed Reviewing Representative, setting forth in detail the reasons therefore. In the event of such objection, the ISO, SCE and Division Director shall promptly meet and confer to try to resolve the issue, and if necessary, seek a ruling from either the assigned ALJ or the Law and Motion ALJ. In addition to determining whether the proposed Reviewing Representative has a need to know, the ALJ in ruling on the issue, will evaluate whether the candidate is engaged in the purchase, sale or marketing of energy or capacity (or the direct supervision of any employee(s) whose duties include such activities), or the bidding on or purchasing of power plants or consulting on such matters (or the direct supervision of any employee(s) whose duties include such bidding, purchasing or consulting). Absent unusual circumstances as determined by the ALJ, a candidate who falls within the criteria set forth in the preceding sentence will ordinarily be deemed ineligible to serve as an ISO Reviewing Representative; provided, however, that for purposes of this protective order, the ordinary operation by the ISO of the ISO Controlled Grid and the ordinary administration by the ISO of ISO administered markets, including markets for Ancillary Services, Supplemental Energy, Congestion Management, and Local Area Reliability Services, shall not be deemed to be the purchase, sale or marketing of energy or capacity.

4. Access of NMPP Reviewing Representatives to Protected Materials shall be granted only pursuant to the terms of this Protective Order. Participants in this proceeding who

are MPP shall not be granted access to Protected Material, but shall instead be limited to reviewing redacted versions of documents that contain Protected Material.

5. NMPP Reviewing Representatives shall use Protected Materials solely for purposes of this proceeding. In addition, for a period of two (2) years from the date a Disclosing Party provides Protected Materials to a Reviewing Representative, such Reviewing Representative shall not engage, directly or indirectly, in (a) the purchase, sale, or marketing of electrical energy or capacity or natural gas (or the direct supervision of any employee(s) whose duties include such activities), (b) the bidding on or purchasing or power plans (or the direct supervision of any employee(s) whose duties include such activities), or (c) consulting with or advising others in connection with any activity set forth in subdivisions (a) or (b) above (or the direct supervision of any employee(s) whose duties include such activities or consulting), if such activities (as described in subparagraphs (a) through (c)) are reasonably likely to affect California energy markets in more than a de minimis way.

6. Whenever SCE submits a document in this proceeding that includes data that SCE contends is confidential or proprietary, SCE shall also prepare a redacted version of such document. The redacted version shall be sufficiently detailed in organization so that persons familiar with this proceeding can determine with reasonable certainty the nature (but not the magnitude) of the data that has been redacted. The redacted version of any document required by this paragraph shall be served on all parties on the service list (or, in the case of discovery, on all persons entitled to the discovery responses) who are not entitled to obtain access to Protected Material hereunder. All disputes regarding redacted versions of documents shall be submitted for resolution to the CPUC in accordance with Paragraph 14 of this Protective Order.

7. Within thirty (30) days after the date on which the final Commission decision in this proceeding is no longer subject to judicial review, a NMPP Reviewing Representative shall, if requested to do so in writing by SCE, return or destroy the Protected Materials. Within the same 30-day period, the NMPP Reviewing Representative shall also submit to SCE an affidavit stating that, to the best of the NMPP Reviewing Representative's knowledge, all Protected

Materials subject to the request have been returned or destroyed. Notwithstanding the two preceding sentences, the NMPP Reviewing Representative may retain Notes of Protected Materials and copies of filings, official transcripts and exhibits, if any, prepared in the course of the NMPP Reviewing Representative's review of the Protected Materials, provided that such retained materials are maintained in accordance with Paragraphs 10 and 13 below. To the extent that Protected Materials are not returned or destroyed pursuant to this paragraph, they shall remain subject to this Protective Order, Section 583 of the California Public Utilities Code and CPUC General Order No. 66-C.

8. In the event the CPUC receives a request for a copy of or access to Protected Material from a state governmental agency that is authorized to enter into a written agreement sufficient to satisfy the requirements for maintaining confidentiality set forth in Government Code Section 6254.5(e), the CPUC may, after giving written notice to SCE of the request, release such Protected Material to the requesting government agency, upon receiving from the requesting agency an executed Interagency Confidentiality Agreement. Such Agreement shall (i) provide that the agency will treat the requested Protected Material as confidential in accordance with this Protective Order, (ii) include an explanation of the purpose for the agency's request, as well as an explanation of how the request relates to furtherance of the agency's functions, (iii) be signed by a person authorized to bind the agency contractually, and (iv) expressly state that furnishing of the requested Protected Materials to employees or representatives of the agency does not, by itself, make such Protected Materials public. In addition, the Interagency Confidentiality Agreement shall include an express acknowledgement of the CPUC's sole authority (subject to judicial review) to make the determination whether the Protected Material should remain confidential or be disclosed to the public, notwithstanding any provision to the contrary in the statutes or regulations applicable to the agency.

9. If a request is made pursuant to the Public Records Act ("PRA"), Government Code Section 6250, *et seq.*, that Protected Material filed with or otherwise in the possession of the CPUC be produced, the CPUC will notify SCE of the PRA request and will notify the

requester that the Protected Materials are public records that fall within the exclusions listed in Section 2 of General Order No. 66(c), and/or that there is a public interest served by withholding the record. *See* paragraphs 2.2 and 3.3 of General Order 66-C. In the event the CPUC receives a request from a federal governmental agency or via a judicial subpoena for the production of Protected Materials in the CPUC's possession, the CPUC will also notify SCE promptly of such request. In the event that a PRA requester brings suit to compel disclosure of Protected Materials, the CPUC will promptly notify SCE of such suit, and Commission Staff and SCE shall cooperate in opposing the suit.

10. Protected Materials shall be treated as confidential by each NMPP Reviewing Representative and by each ISO Reviewing Representative in accordance with the certificate executed pursuant to Paragraphs 3(f) and 12 hereof. Protected Materials shall not be used except as necessary for the conduct of this proceeding, and shall not be disclosed in any manner to any person except (i) other NMPP Reviewing Representatives who are engaged in this proceeding and need to know the information in order to carry out their responsibilities, (ii) persons employed by or working on behalf of the CEC or other state governmental agencies covered by Paragraph 8, and (iii) the ISO Reviewing Representatives (with the exception of price information). In the event that a NMPP not covered by Paragraph 8 or the ISO is requested or required by applicable laws or regulations, or in the course of administrative or judicial proceedings (in response to oral questions, interrogatories, requests for information or documents, subpoena, civil investigative demand or similar process) to disclose any confidential information, the NMPP or the ISO agrees to oppose disclosure on the grounds that the requested information has already been designated by the Commission as Protected Materials subject to this Protective Order lawfully issued by the Commission and, therefore, may not be disclosed. The ISO or NMPP shall also immediately inform the utility of the request, and the utility may, at its sole discretion and cost, direct any challenge or defense against the disclosure requirement, and the NMPP or ISO shall cooperate with the utility to the maximum extent practicable to oppose the disclosure of the Protected Materials consistent with the applicable law. If an agency

or court of competent jurisdiction nevertheless orders disclosure, or if the utility agrees to disclosure without such an order, the NMPP and/or ISO shall cooperate with the utility to obtain confidential treatment of the Protected Materials by the entity in whose favor disclosure has been ordered or agreed to, consistent with this Protective Order, prior to any such disclosure. If there are multiple requests for substantially similar Protected Materials in the same case or proceeding where the NMPP or ISO has been ordered to produce certain specific Protected Materials, the ISO or NMPP may, upon requests for substantially similar Protected Materials by a similarly situated party, respond in a manner consistent with that order to those substantially similar requests for those Protected Materials.

11. It shall be a rebuttable presumption that (i) any study that incorporates, describes or otherwise employs Protected Material in a manner that could reveal all or a part of the Protected Material shall also be considered Protected Material that is subject to Section 583 of the Public Utilities Code, the Commission's General Order 66-C, and this Protective Order. It shall also be a rebuttable presumption that where the inputs to studies or models include Protected Material, or where the outputs of such studies or models reveal such inputs or can be processed to reveal the Protected Material, such inputs and/or outputs shall be considered Protected Material subject to this Protective Order, unless such inputs and/or outputs have been redacted or aggregated to the satisfaction of SCE. Unless a party, by means of notice and motion, obtains a ruling from the Assigned ALJ or the Law and Motion ALJ holding that the applicable presumption(s) from among the foregoing has (have) been rebutted with respect to the model or study at issue, then any party who devises or propounds a model or study that incorporates, uses or is based upon Protected Material shall label the model or study "Protected Material," and shall be subject to the terms of this Protective Order.

12. No NMPP Reviewing Representative shall be permitted to inspect, participate in discussions regarding, or otherwise be granted access to Protected Materials pursuant to this Protective Order unless such NMPP Reviewing Representative has first executed a Non-Disclosure Certificate and delivered it to SCE. Attorneys qualified as NMPP Reviewing

Representatives shall ensure that persons under their supervision or control comply with this Protective Order.

13. In the event that a NMPP Reviewing Representative to whom Protected Materials are disclosed ceases to be engaged in this proceeding, or is employed or retained for a position whose employer is not qualified to be a NMPP under Paragraph 3(g)(1), then access to Protected Materials by that person shall be terminated. Even if no longer engaged in such reviews, every such person shall continue to be bound by the provisions of this Protective Order and the Non-Disclosure Certificate.

14. All disputes arising under this Protective Order shall be presented for resolution to the Assigned ALJ or the Law and Motion ALJ. Prior to presenting any such disputes to the applicable ALJ, the parties to the dispute shall use their best efforts to resolve it. Neither SCE nor the Commission Staff waives its right to seek additional administrative or judicial remedies after the Assigned ALJ or the Law and Motion ALJ has made a ruling regarding the disputes.

15. All documents containing Protected Materials that are filed with the Commission or served shall be placed in sealed envelopes or otherwise appropriately protected and shall be endorsed to the effect that they are filed or served under seal pursuant to this Protective Order. Such documents shall be marked with the words "Protected Materials" or one of the other, similar terms set forth in paragraph 3(c) hereof, and shall be served upon all NMPP Reviewing Representatives. Service upon the persons specified in the foregoing sentence may either be (a) by electronic mail in accordance with electronic service protocols established for this docket, (b) by facsimile, (c) by U.S. postal mail, d) by overnight mail, or e) by messenger service.

16. Nothing in this Protective Order shall be construed as limiting the right of SCE, Commission Staff, or a NMPP from objecting to the use of Protected Materials on any legal ground, such as relevance or privilege.

17. All Protected Materials filed with judicial or administrative bodies other than the Commission, whether in support of or as a part of a motion, brief or other document or pleading, shall be filed and served in sealed envelopes or other appropriate containers bearing prominent

markings indicating that the contents include Protected Materials that are subject to this Protective Order.

18. Neither SCE nor the Commission Staff waives its right to pursue any other legal or equitable remedy that may be available in the event of actual or anticipated disclosure of Protected Materials.

Dated: _____, 2006

(Administrative Law Judge)

APPENDIX A

**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE
STATE OF CALIFORNIA**

Order Instituting Rulemaking to Continue)	
Implementation and Administration of California)	Rulemaking 06-05-027
Renewables Portfolio Standard Program.)	(Filed May 25, 2006)
_____)	

NON-DISCLOSURE CERTIFICATE

I, _____, have been asked by _____ to inspect certain materials that have been designated as “Protected Materials” under Paragraph 3 of the Protective Order entered in the above-captioned matter on _____, 2006 (the “Order”).

1. I hereby certify my understanding that access to Protected Materials is provided to me pursuant to the terms and restrictions of the Order in this proceeding, that I have been given a copy of and have read the Order, and that I agree to be bound by it. I understand that the contents of the Protected Materials, any notes or other memoranda, or any other form of information that copies or discloses Protected Materials shall not be disclosed to anyone other than in accordance with the Order. I acknowledge that a violation of this certificate constitutes a violation of an order of the California Public Utilities Commission.

2. I understand that my review of Protected Materials is solely for the purpose of participating in the above-captioned matter, and that any other use or disclosure of Protected Materials by me is a violation of the Order.

3. I hereby agree to submit to the exclusive jurisdiction of the California Public Utilities Commission for the enforcement of the undertakings I have made hereby and I waive any objection to venue laid with the Commission for enforcement of the Order.

4.

CERTIFICATE OF SERVICE

I hereby certify that, pursuant to the Commission's Rules of Practice and Procedure, I have this day served a true copy of SOUTHERN CALIFORNIA EDISON COMPANY'S (U 338-E) MOTION FOR PROTECTIVE ORDER AND FOR PERMISSION TO FILE DATA UNDER SEAL on all parties identified on the attached service list(s). Service was effected by one or more means indicated below:

Transmitting the copies via e-mail to all parties who have provided an e-mail address. First class mail will be used if electronic service cannot be effectuated.

Executed this 1st **day of August, 2006**, at Rosemead, California.
